

# Finger Cable Manager for RFM2 Cabinet System

### Finger Cable Manager

The Finger Cable Manager attaches to the cabinet's frame, and provides vertical cable management with plastic T-shaped cable guides and openings that align with each U space in the cabinet to organize patch cords. The manager is for use in the 762 mm (30"W) cabinet and includes a cover that partially encloses cables. Fingers require a 146 mm (5.75") rail setback.
