## Custom Metal Fabrication

Established in 1966, *R. F. MOTE* is a prominent manufacturer of custom metal and light structural steel products. As such, we are equipped for CNC shearing, CNC press brake forming, CNC punching, MIG, TIG, and Spot Welding, custom machining, spray painting, powder coating, as well as general fabricating, all of which we offer to our customers as a service.

State of the art CNC machinery permits production of the highest precision metal fabrications as demanded by industry. Our physical equipment is supported by design and engineering services to the custom metal products line, through which we offer in-house design and prototyping as well as small lot or production volume runs for such products as chasis and covers, brackets, face plates, enclosures, and consoles.

### CNC TURRET PUNCH PRESSES

R.F. Mote is equipped with a series of CNC Turret Punch Presses and a vast selection of standard and special tooling

### CNC PRESS BRAKE FORMING

Multi-axis Programmable press brakes ensure that all forming is executed efficiently and to very close tolerances

### WELDING

We are equipped for MIG, TIG, and Spot Welding as well as all grinding, polishing, and finishing required prior to painting or plating

### FINISHING

We offer a wide variety of finishes including powder coating, wet painting, plating, anodizing, and silk screening

## Custom Metal Fabrication

R. F. Mote custom fabricated products are crafted from a wide variety of materials including steel, stainless steel, aluminum, copper and brass with an extensive variety of painted or plated finishes.

*Below, a sampling of large and small enclosures, face plates, kiosks, and chassis*

Our commitment extends beyond simply building precision parts and assemblies; We believe that when you strive for the best in your product you deserve the best in ours.

## PRODUCTS WE MANUFACTURE:

- *Cabinets and Racks*
- *Custom Metal Fabrication*
- *Work Benches*
- *Custom Consoles*
- *Outdoor Telco Products*
- *Broadcast Racks*
- *Solar Racking*
