

AIRSTOP KIT for RFM FORTRESS SERIES CABINETS

Features:

- Block air passageways around mounting rails or behind cable managers
- Prevents warm and cold air mixing within the cabinet which increases cooling efficiency
- Kit comes with vertical brackets
- 4 Raceway brackets close off front to back raceways
- Vertical airstop mounts on cabinet cross member
- Durable black textured powder coated finish

Highlights:

- Top close off mounts on equipment rails (zero 'u' design)
- Top brackets close off space at top
- cover plates can be replaced with optional brush kits (P/N# RFM-XMBK-F) which allow cables to be passed through from the front to the rear of the cabinet
